

List of Profitable Business Ideas on Tamarind Seed Processing and By-Products.

Tamarind (*Tamarindus Indica*) Processing Industry.

Processed Products of Tamarind.

Tamarind Kernel Powder, Gum from Tamarind Seed Powder, Tamarind Pulp from Tamarind, Tamarind Juice Powder, Oil from Tamarind Seed, Tartaric Acid, Food Colour, Crude Pectin, Tamarind Oil)

Introduction

India is the world's largest producer of Tamarind, with a production of over 2 lakh tonnes. Tamarind is cultivated in Karnataka, Tamil Nadu, Chhattisgarh, Kerala, Andhra Pradesh, Maharashtra and Telangana.

Tamarind Pulp is used in numerous culinary preparations. It is also a raw material for the preparation of wine like beverages. The tamarind kernel powder is found to be extensively used for its sizing properties, in textile, confectionary, cosmetics and pharmaceutical industries. The testa is used in dyeing and tanning industry. The tender leaves and flowers are used as vegetables. In medicine, it is used as appetizing, laxative, healing and anti-helmintic. It is also used against fluorosis.

Indian Production of Tamarind

Production (000 Tonnes)			
		2015-16	
Sr No.	State	Production	Share (%)
1	Karnataka	72.15	37.11
2	Tamil Nadu	49.66	25.54
3	Kerala	37.30	19.19
4	Telangana	12.49	6.42
5	Maharashtra	11.40	5.86
6	andhra Pradesh	11.10	5.71
7	Others	0.28	0.14
8	Mizoram	0.03	0.02

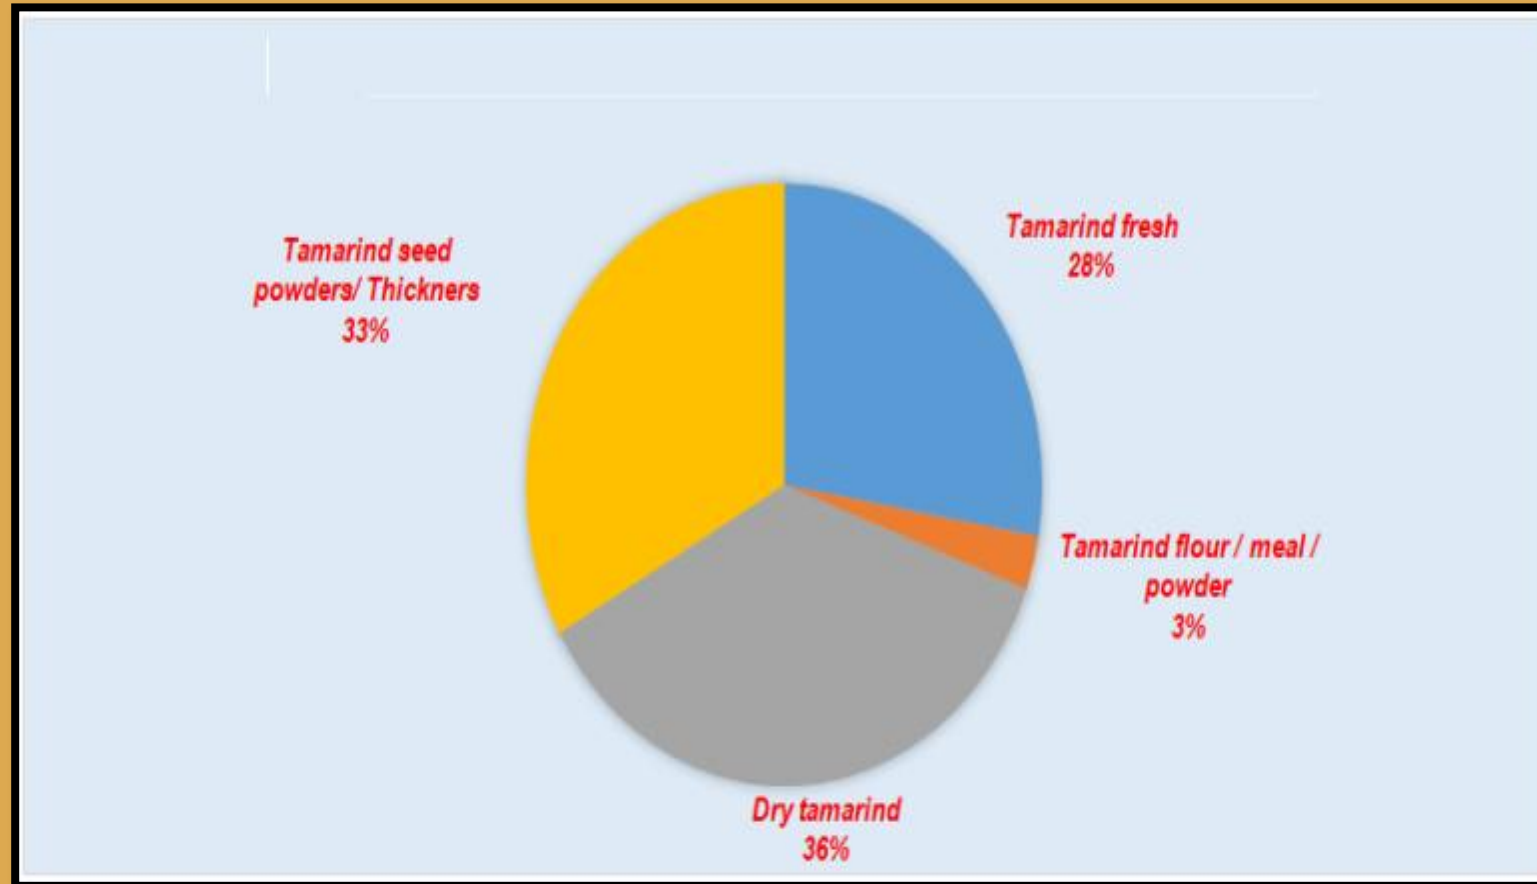

State wise Share of Tamarind Production

Around 50,000 tonnes of Tamarind is exported in various forms including fresh fruit, deseeded dry tamarind and Tamarind powder.

Tamarind Exports: Product wise Breakup

Tamarind extract is used in a variety of food products to enhance flavor and health benefits. Traditionally, tamarind extracts were used in juices due to its coolant property and were excessively consumed in the Middle Eastern region. It is a regularly used food ingredient in Asia and Latin America regions. Tamarind extract is used for manufacturing of tamarind concentrate, which is used in the preparation of blends for fruit juice, sauces, pickles etc. Tamarind extracts are used as natural preservatives, owing to its antifungal, antiseptic and antimicrobial properties. The other health benefits of tamarind extract are that it acts as an antioxidant. It is used to cure digestive problems, conjunctivitis, common cold, fever etc.

Tamarind extracts are also used in cosmetic products. It acts as a bleaching and skin hydrating agent in cosmetic products. The fragrance oils made from tamarind extract has a sour and sweet essence. It is incorporated as a fragrance ingredient in a variety of products such as soaps, candles, air fresheners, bath oils, aromatherapy products, incense sticks, laundry products etc.

The use of tamarind extract in the rapidly growing food industry is expected to be a major driver for the growth global tamarind extract market. Tamarind extracts are as an alternative for chemical preservatives such as lactic, acetic, benzoic acids etc. The increasing consumer awareness regarding food safety and health benefits of natural preservatives is anticipated to boost global tamarind extract market. The rise in demand and production of processed food and adoption of natural processing techniques by the food industry is expected to drive global tamarind extract market growth. Tamarind extract is an important ingredient in cosmetic and fragrance industry. The upsurge in consumer demand for organic food and ayurvedic medicines is expected to propel the growth of global tamarind extract market.

The global tamarind extract market can be divided into five regions, namely North America, Latin America, Europe, Asia-Pacific (APAC) and the Middle East & Africa (MEA). APAC holds major share in global tamarind extract market. India is the major manufacturer and exporter of tamarind extract. The increasing investment in the healthcare industry and adoption of ayurveda is expected to drive tamarind extract market growth in the region. North America and Europe accounts for a significant share in global tamarind extract market. This is attributed to the mature food processing industries in these regions. Tamarind extract is used as a major ingredient in fruit juices in the desert regions of the Middle Eastern region due to its cooling effect.

Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Required Project

List of Profitable Business Ideas on Tamarind Seed Processing and By-Products.

Tamarind (Tamarindus Indica) Processing Industry.

Processed Products of Tamarind.

Tamarind Kernel Powder, Gum from Tamarind Seed Powder, Tamarind Pulp from Tamarind, Tamarind Juice Powder, Oil from Tamarind Seed, Tartaric Acid, Food Colour, Crude Pectin, Tamarind Oil)

The following industries have been proven to be quite Profitable:

➤ ***TAMARIND PULP FROM TAMARIND***

Tamarind is widely used in vegetable preparation or producing sour taste in different kind of foods, snacks etc. It is generally used as paste forms or water extracts and produces good sour taste. Generally it contents tartaric acid, red colour pigment, fruit sugars, minerals etc. [Read more](#)

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are We?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

What do We Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are We Different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
