Setting Up a Hospital.

Healthcare Business Ideas in Medical Sector.

*Multispeciality Hospital. Cancer Hospital. Medical Diagnostic
Centre. Medical College with Hospital. Hospital with Teaching
Facility*

Introduction

A hospital is an integral part of social and medical organization, the function of which is to provide complete healthcare for the population, both curative and preventive and whose out-patient services.

Health care is one of the most complex activities in which human beings engage. Hospitals are basically service organizations. The professional area of an organization is influenced by its user's satisfaction. Healthcare services make up a significant portion of national expenses, and thus it is essential that the nature and quality of services be explored. Patient satisfaction is one of the primary outcome variables when considering healthcare services. Patient satisfaction has become an important performance indicator for the delivery of quality medical care services.

The hospital, a major social organization, offers considerable advantages to both the patient and the society. Certain health problems require intensive medical treatment and personal care which normally cannot be made available at home or in the clinic of a doctor, this is possible only in a hospital where a large number of professionally and technically skilled people apply their knowledge and skill with the help of world class advanced and sophisticated equipment.

Healthcare scenario is fast changing all over the world. Today Indian health care industry is business driven and one can see entry of all sorts of service providers to be part of this massive multi core business, growing at the rate of 13% annually. Globalization and privatization have also changed the functioning of the healthcare system.

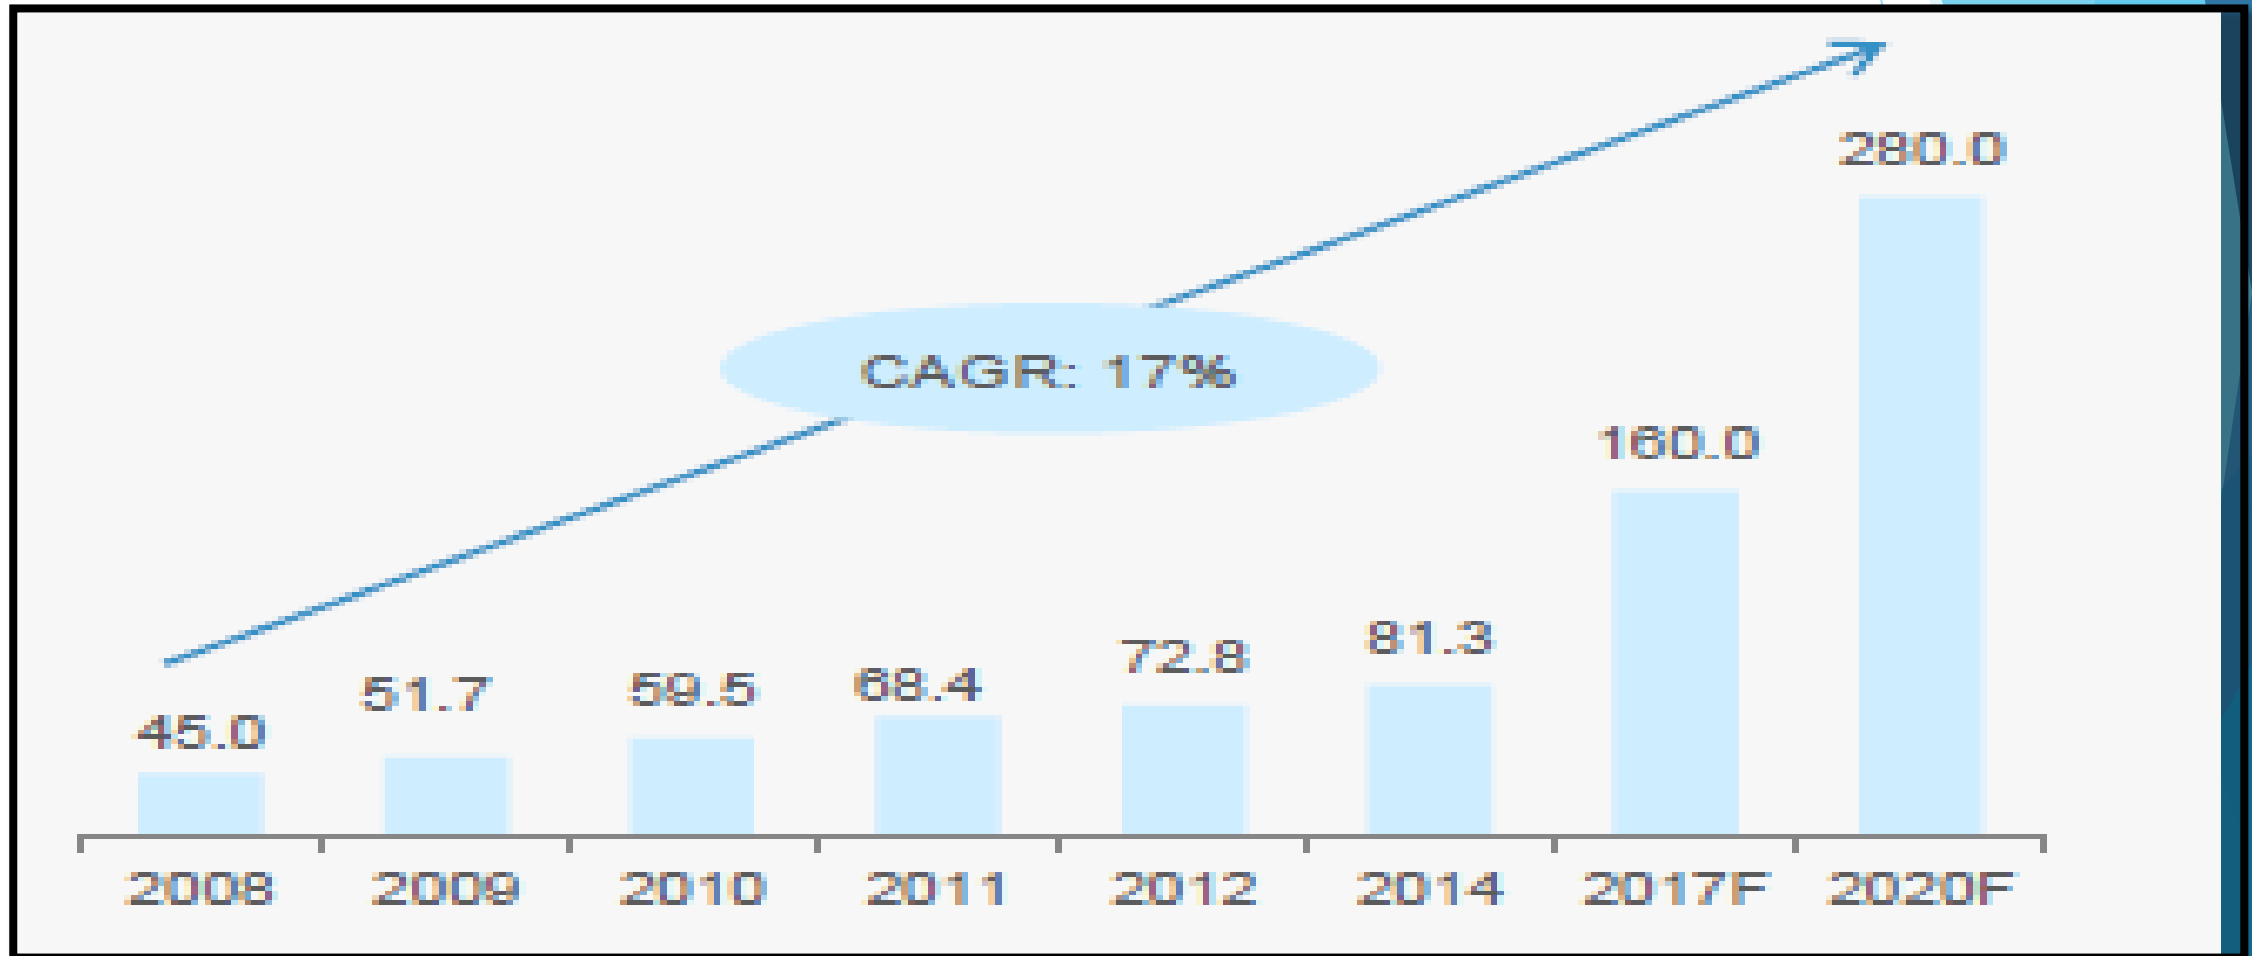

The private health network is spreading fast throughout the country. Economic, political, social, environmental and cultural factors are influencing the health care and the delivery of the health care services.

The hospital services' market represents one of the most lucrative segments of the Indian healthcare industry. Various factors, such as increasing prevalence of diseases, improving affordability, and rising penetration of health insurance are fuelling the growth in the Indian hospital industry. Several private players are also entering the sector with new plans of establishing hospitals and health centers around the country. On the back of continuously rising demand, the hospital services industry is expected to be worth US\$ 81.2 Billion by 2015.

Healthcare has become one of India's largest sectors - both in terms of revenue and employment. The Indian healthcare market is expanding rapidly. The Indian healthcare industry amounted to \$110 billion in 2016 and is expected to reach \$280 billion by 2020 due to increased demand for specialized and quality healthcare facilities. Health care has become one of India's largest sectors both in terms of revenue and employment. The industry is growing at a tremendous pace owing to its strengthening coverage, services and increasing expenditure by public as well private players.

Healthcare Sector Growth Trend (USD Billion)

Market Size of Private Hospitals (USD Billion)

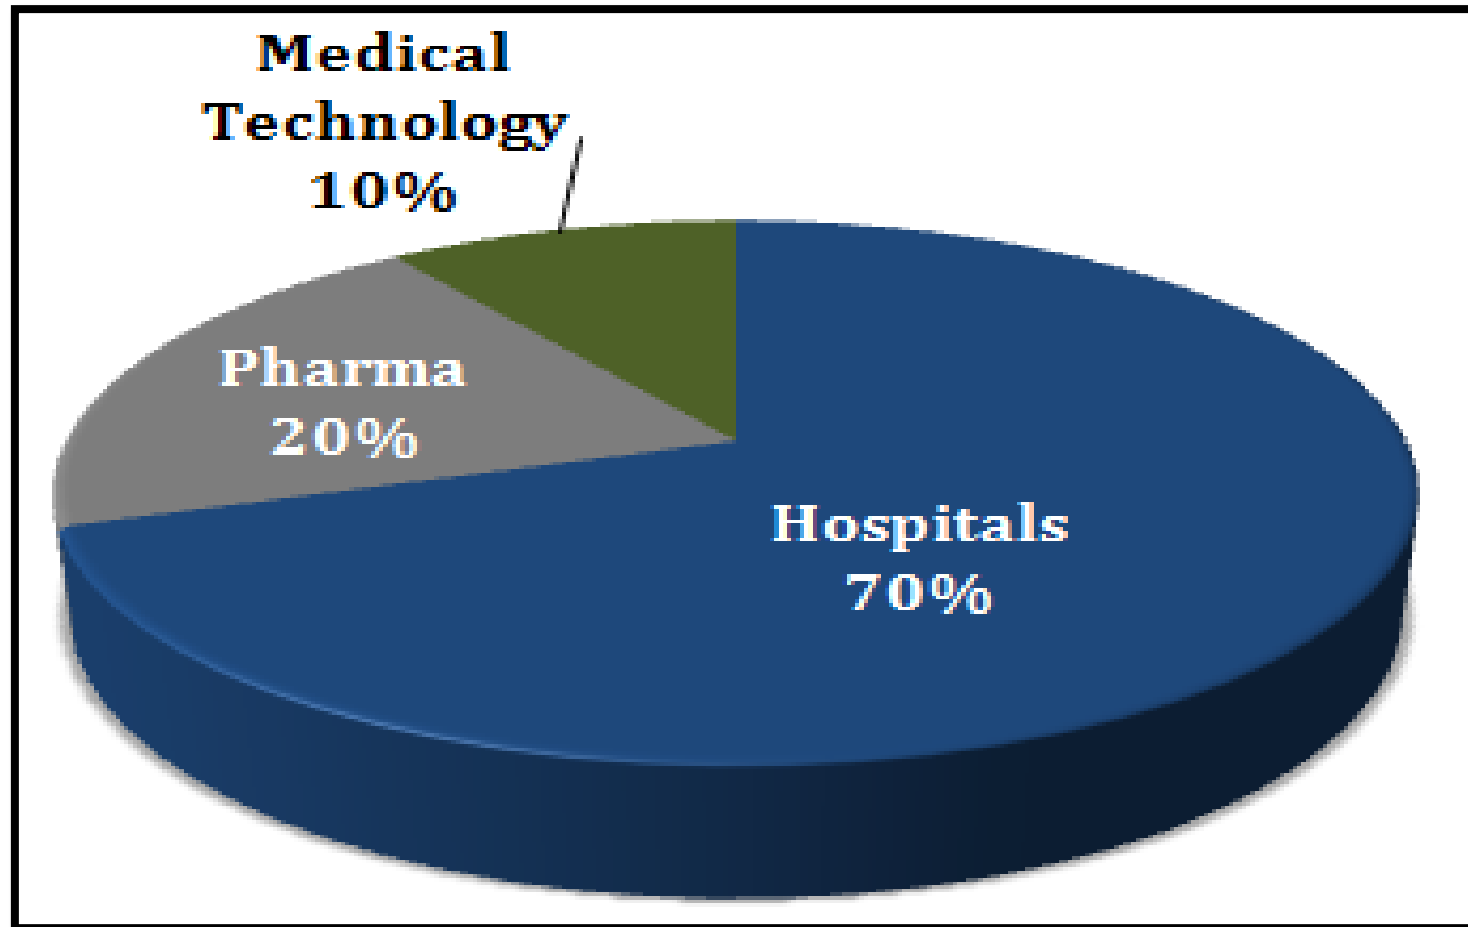

Healthcare revenue in India is set to reach USD280 billion by 2020; expenditure is likely to expand at a CAGR of 17 per cent over 2011–20. Healthcare has become one of India's largest sectors both in terms of revenue and employment. The industry is growing at a tremendous pace owing to its strengthening coverage, services and increasing expenditure by public as well private players.

The market size of private hospitals is expected to grow at a CAGR of 19.2 % to reach ~U.S. \$ 120 billion by 2020 from its current size of ~U.S. \$ 50 billion.

- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)
