

Lucrative Business & Investment Opportunities to Start

Soya Nuggets

Manufacturing Plant

(Rising Market Demand of Soy nuggets)

(Rising Market Demand of Soy nuggets)

Manufacturing Plant

Introduction

Soya Nuggets are also known as soya chunks, nutri nuggets, soy chunks, or soy nuggets. Soya chunks are an odourless and tasteless food with a high nutritional value and a high protein content. Everyone's favourite food item, soya nuggets are a wonder bean for adults and teenagers alike. Soya Nuggets are a good source of protein and polyunsaturated fats, as well as being the only legume that contains enough omega-3 fatty acids.

Raw soybeans contain 446 calories per 100 grammes, 36.49 grammes of protein, 19.94 grammes of fat, and 30.16 grammes of carbohydrates. Soya Nuggets (Soya Chunks) are a defatted soy flour product that is produced as a by-product of the soybean oil extraction process. It's sometimes used as a meat substitute or extender. It's easy to prepare and has a protein level that's equivalent to some meats.

Nuggets of Soya (Soya chunks) Crispy and luscious nuggets are simple to make and make a great snack with a cup of hot beverage on a cold winter or monsoon evening. Soybeans are a great source of protein and fat from plants. Crispy on the outside and juicy on the inside, these soya nuggets are super tasty and simple to produce. This delectable dish is made with soya nuggets, yoghurt, green chilli, ginger-garlic paste, onions, and a blend of spices that can be a real treat for your taste buds.

Soya chunks come in a variety of sizes and shapes, including normal, small, and granules. You should eat more of them because they are a good source of carbohydrates and protein. Phytosterols are compounds found in soy beans. These plant compounds resemble cholesterol and steroid hormones in structure. Soya chunks come in a variety of sizes and shapes, including standard big chunks, mini chunks, and granules, and can be used in a variety of recipes.

Benefits & Uses of Soya Nuggets

Soya chunks provide a slew of advantages, including increased muscle mass and metabolism. They are beneficial to the health of the bones, hair, and skin. Soy chunks effectively reduce bad cholesterol levels in the body and protect the heart from disease. Soya chunks help weight loss by preventing extra fat from collecting around the organs.

The fibre in the chunks allows the food to move through the bloodstream more slowly, leaving you fuller for longer.

Soya chunks have a long list of health benefits:

- 1.It has a high protein content, surpassing that of eggs, meat, and milk.**
- 2.It's a good source of flavones, which are believed to lower the risk of osteoporosis in menopausal women and relieve other symptoms.**

- 3. It improves the health and digestibility of bones.**
- 4. It contains minerals such as manganese, iron, calcium, and magnesium.**
- 5. It aids in the control of body weight and the prevention of diabetes due to its high fibre content.**
- 6. The high magnesium content has been shown to help with insomnia.**
- 7. It's high in vitamin B, vitamin K, riboflavin, and folate, among other nutrients.**

Soya chunks, particularly for vegetarians, are a good source of protein. Soya chunks are the richest source of plant protein, with about 52 grammes of protein per 100 grammes of boiled soya chunks, according to nutrela. For vegetarian bodybuilders, it is one of the best chicken and egg alternatives. However, 100 grammes is much too much to eat in one sitting.

Manufacturing Process

Soya chunks are made from defatted soy flour that has had the oil extracted. When dried, they are the byproducts of soybean oil extraction and have a rough texture. When immersed in warm water or attached to gravy, the texture easily changes to soft and spongy. They're dubbed "vegetarian meat" because their nutritional profile is similar to that of a variety of non-vegetarian foods.

Soya chunks are also very flexible and can be cooked to resemble non-vegetarian curries in taste. People prefer organic soybean meals due to rising health issues, as organic products are beneficial to one's health. The basic raw material for making soya nuggets is defatted soya flour. HDPE Bags with food-grade inner liners are required for packaging, and cardboard boxes are required to pack those Bags for bulk transportation.

Around 2018 and 2020, the global soybean market consumed 347 million metric tonnes of soybeans. In the forecast period of 2021-2026, consumption is projected to rise at a CAGR of 2%, reaching a volume of 373 million metric tonnes by 2026. Demand for soya nuggets is rising as more health-conscious urban Indians begin to consume them. Animal feed and pet food are two of the most popular uses for soybeans.

The value of imported soybeans has changed dramatically on the global soybean market. The soybean market takes center stage here because its commodity is steadily replacing dairy by offering the same nutrients while still ensuring environmental sustainability. Soybean is high in amino acids and is particularly helpful to people who have lactose intolerance. These factors would propel the soybean market forward.

Soy milk, tofu, tempeh, silken tofu, and soy curd are only a few of the items available in the soybean market that can fully substitute milk and its products in our daily lives. As a result, in the coming years, soybean dairy-like products will disrupt the market and shape its course. Soybeans are commonly used in the food industry as salad dressings and other cooking ingredients

Soybeans are also common as a low-cholesterol and low-fat alternative to fatty foods. Lactose intolerant people will appreciate this dairy option. It also has a high nutrient content of fibres, protein, antioxidants, phytoestrogens, and omega-3 fatty acids, among other things, which provides various health benefits.

Increased obesity cases have resulted in a transition to soybean-based snack and food items such as soy chocolate nuts and soy crisps, propelling the soybean market even higher. It is also beneficial for people with anaemia since it is high in iron and copper, which aids in the production of red blood cells. As a result, increasing health consciousness and demand for dairy alternatives are propelling the global soybean market forward.

Major Queries/Questions Answered in the Report?

- 1. What is Soya Nuggets Manufacturing industry ?**
- 2. How has the Soya Nuggets Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Soya Nuggets Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Soya Nuggets Manufacturing plant ?**

- 5. What is the structure of the Soya Nuggets Manufacturing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Soya Nuggets Manufacturing Business?**
- 7. What are the operating costs for setting up Soya Nuggets Manufacturing plant ?**
- 8. What are the machinery and equipment requirements for setting up Soya Nuggets Manufacturing plant ?**

9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Soya Nuggets Manufacturing plant ?

10. What are the requirements of raw material for setting up Soya Nuggets Manufacturing plant ?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Soya Nuggets Manufacturing Business?

12. What is the Manufacturing Process of Soya Nuggets?

- 13. What is the total size of land required for setting up Soya Nuggets Manufacturing plant ?**
- 14. What will be the income and expenditures for Soya Nuggets Manufacturing Business?**
- 15. What are the Projected Balance Sheets of Soya Nuggets Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Soya Nuggets Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Soya Nuggets Manufacturing Business?**

18. What are the Personnel (Manpower) Requirements for setting up Soya Nuggets Manufacturing Business?

19. What are Statistics of Import & Export for Soya Nuggets?

20. What is the time required to break-even of Soya Nuggets Manufacturing Business?

21. What is the Break-Even Analysis of Soya Nuggets Manufacturing plant?

22. What are the Project financials of Soya Nuggets Manufacturing Business?

- 23. What are the Profitability Ratios of Soya Nuggets Manufacturing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Soya Nuggets Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Soya Nuggets Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Soya Nuggets Manufacturing project?**

- 27. What are the Market Opportunities for setting up Soya Nuggets Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Soya Nuggets Manufacturing Business?**
- 29. What is the Plant Layout for setting up Soya Nuggets Manufacturing Business?**

Reasons for Buying our Report:

- ❖ **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- ❖ **This report provides vital information on the product like it's characteristics and segmentation**
- ❖ **This report helps you market and place the product correctly by identifying the target customer group of the product**

- ❖ **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- ❖ **The report provides a glimpse of government regulations applicable on the industry**
- ❖ **The report provides forecasts of key parameters which helps anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Soya Nuggets.” provides an insight into Soya Nuggets market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Soya Nuggets project. The report assesses the market sizing and growth of the Indian Soya Nuggets Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Soya Nuggets sector in India along with its business prospects. Through this report we have identified Soya Nuggets project as a lucrative investment avenue.

Select and Choose the Right Business Startup for You (Instant Online Project Identification and Selection)

Finding the right startup business is one of the most popular subject today. Starting a business is no easy endeavor, but the time, effort, and challenges can be worth it if you succeed. To give yourself the best chance to be successful, take your time to carefully find the right business for you. We, at NPCS, endeavor to make business selection a simple and convenient step for any entrepreneur/startup. Our expert team, by capitalizing on its dexterity and decade's long experience in the field, has created a list of profitable ventures for entrepreneurs who wish to diversify or venture. The list so mentioned is updated regularly to give you a regular dose of new emerging opportunities.

Niir PROJECT CONSULTANCY SERVICES

AN ISO 9001: 2015 CERTIFIED COMPANY

Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

MARKET RESEARCH REPORTS

MARKET RESEARCH REPORTS

Objective

- To get a detailed scenario of the industry along with its structure and classification
- To provide a comprehensive analysis of the industry by covering aspects like:
 - ❑ Growth drivers of the industry
 - ❑ Latest market trends
 - ❑ Insights on regulatory framework
 - ❑ SWOT Analysis
 - ❑ Demand-Supply Situation
 - ❑ Foreign Trade
 - ❑ Porters 5 Forces Analysis

Objective

- To provide forecasts of key parameters which helps to anticipate the industry performance
- To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- To help an entrepreneur/manager in keeping abreast with the changes in the industry
- To evaluate the competitive landscape of the industry by detailing:
 - ❑ Key players with their market shares
 - ❑ Financial comparison of present players

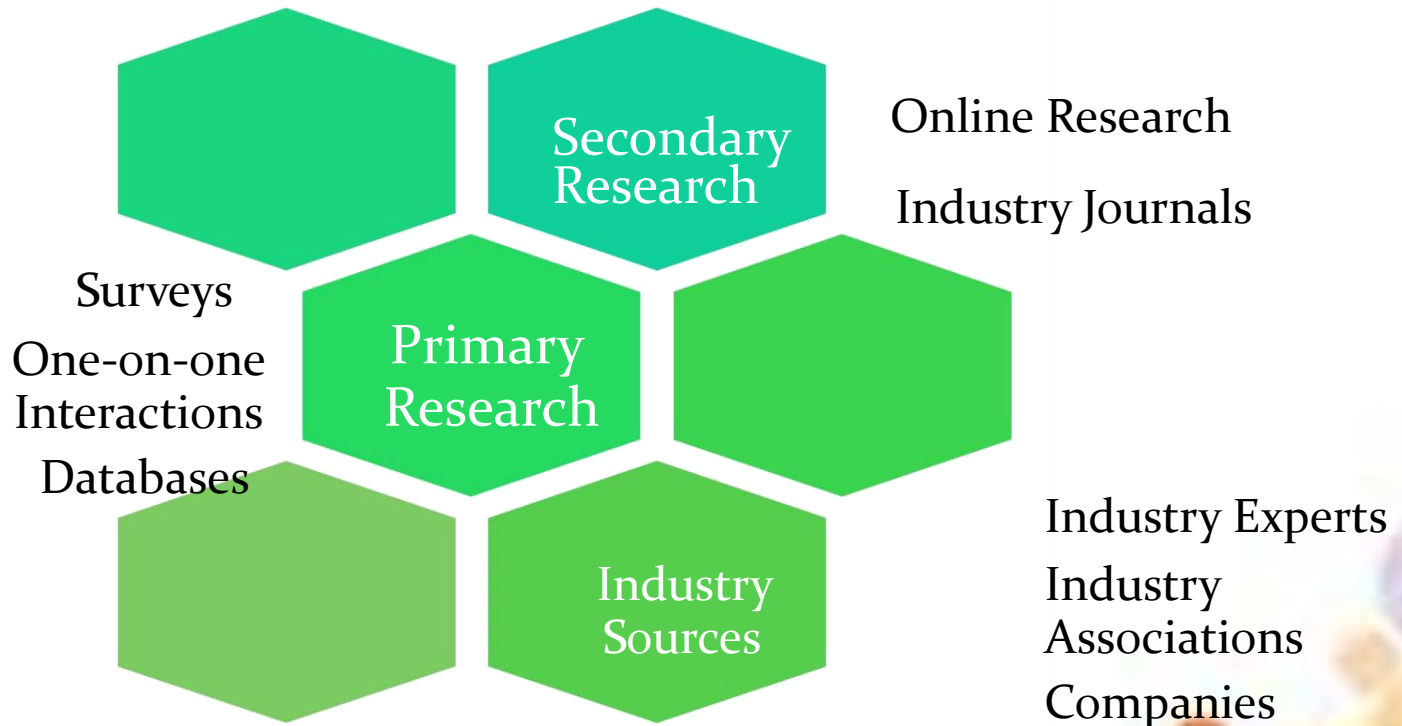

Clientele

- Venturist/Capitalists
- Entrepreneur/Companies
- Industry Researchers
- Investment Funds
- Foreign Investors, NRI's
- Project Consultants/Chartered Accountants
- Banks
- Corporates
