

## Most Profitable Industries

## for Startup Your Own Business.

Fiberglass Wool Ceiling Tiles, Helmet Manufacturing, Dal Mill (Roasted Gram Split, Dal & Chana), Ply Board from Poplar & Eucalyptus Wooden Logs, Wood Plastic Composite (WPC).

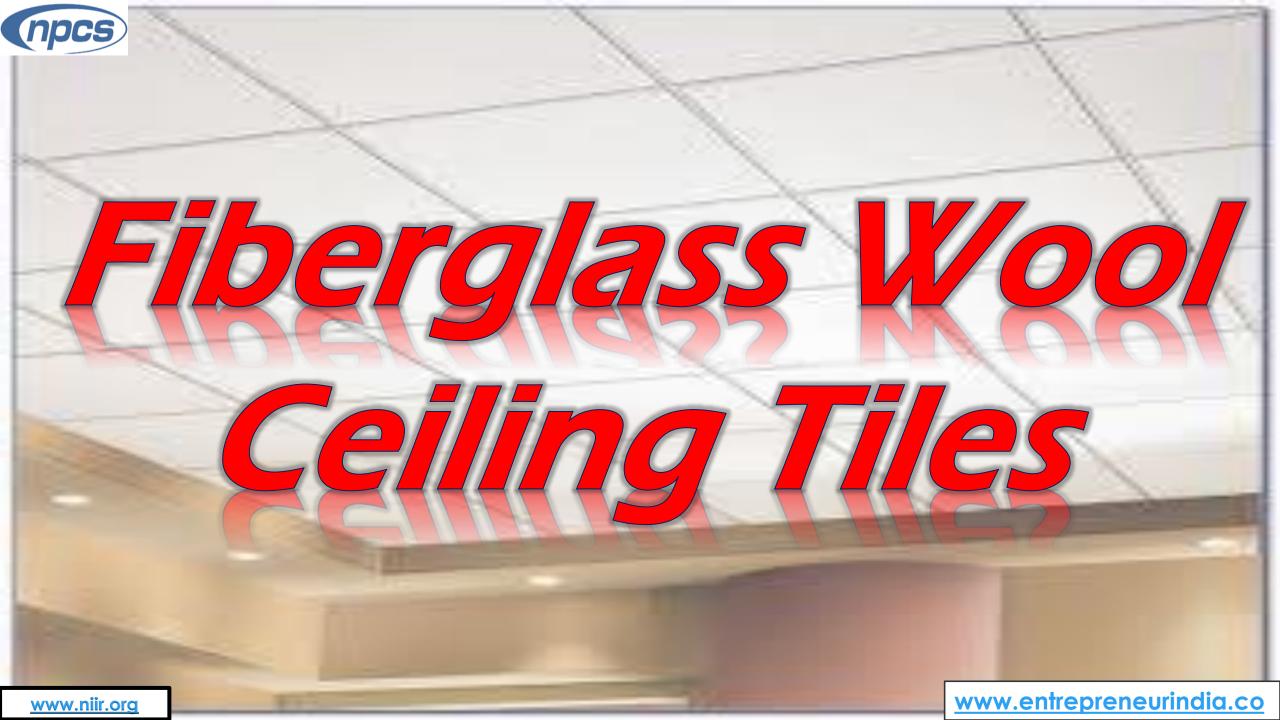

#### INTRODUCTION

Coming up with a brilliant business idea is just the start of your entrepreneurial journey. The best startup business ideas are critical to the success of your business. People nowadays pursue their passions rather than their careers. They are constantly on the lookout for the best startup business ideas to fuel their passion. They don't want to retire when they're 60 years old. Instead of earning a high salary and living in big cities, they seek happiness index.

Millions of people today aspire to start their own company instead of working a conventional 9-to-5 job. During their working lives, the majority of people would chase two or three carriers. Working for yourself is one of the most satisfying things in the world. While running your own company can be challenging, it is rewarding because the effort you put in benefits you individually rather than anyone else.

A secondary ceiling, hung below the primary (structural) ceiling, is known as ceiling tiles. It's also known as a drop ceiling, T-bar ceiling, false ceiling, suspended ceiling, grid ceiling, drop in ceiling, drop out ceiling, or ceiling tiles, and it's a popular choice for both residential and commercial construction. Ceiling tiles are a lightweight construction material that can be used in a variety of places, including buildings, grocery stores, offices, hotels, hospitals, and drywall grid systems. Excellent sound absorption, light reflectance, clean aesthetics, fire and sag resistance, thermal insulation, and longevity are just a few of the benefits they provide.

They are currently being favoured over their alternatives due to their lower environmental impact, waste logistics advantage, and recyclability. Factors such as rising urbanization and industrialization rates, large-scale spending on green-building projects, and rising demand for new residential structures across various countries are currently driving the sector. The global ceiling tiles market developed at a CAGR of about 5.3 percent from 2016 to 2020.

A motorcycle helmet (protective headgear) is a type of helmet worn by motorcycle riders. The primary purpose of a motorcycle helmet is to shield the rider's head during an impact, thus avoiding or minimizing head injury and potentially saving the rider's life. Ventilation, face masks, ear protection, intercom, and other features are included on some helmets. The most critical piece of safety gear to wear when riding a motorcycle is a motorcycle helmet. An outer shell, an impact-absorbing liner, comfort padding, and a strong retention system all work together to provide protection in a motorcycle helmet (Chin strap

If you hit your head hard enough, both the shell and the lining compress, distributing the impact forces across the helmet. India is a country in South Asia. The demand for two-wheeler helmets is expected to expand between 2020 and 2024. Via 2022, India's twowheeler helmet market is expected to rise at a CAGR of around 25%. Carbon fibre helmets, air cooled technology in helmets, antiglare visors, push button and helmet lock features, and a growing number of helmet manufacturers and safety rules are examples of innovation.

Pulses, as the most popular diet component of Indian families, require special attention in the form of pulse grain production on farms, which is also likely to see a breakthrough. A pulse grain is made up of two sections that are separated by a continuous enclosing layer known as husk or peels. The most desired type of dal to be cooked for families is to remove the peels and break the pulse grains into two parts. Chickpea plants grow 20-25 cm tall and have feathery leaves on both sides of the stem.

In 2019, the Indian pulses market reached a volume of 27.5 million tonnes. Vegetarians account for a sizable portion of the Indian population, and pulses are the primary source of protein in their diets. Pulses are high in carbohydrates, vitamins, minerals, fatty acids, dietary fibres, and other nutrients. In addition, India's wide customer base is a major driver of the pulses industry. India's population is forecast to surpass 1.5 billion by 2030, up from 1.3 billion in 2018.

Ply Board is a type of board made from wood or wood-like raw materials that is commonly used to make ply board. Ply board is commonly used in the construction of wooden base furniture nowadays. Ply board can be made from poplar and eucalyptus wood logs. Plywood is a construction material made up of veneers (thin wood layers or plies) glued together. Poplar is a common option for interior projects, and it's always in stock at all of Builder's locations. The heartwood of poplar boards is white/ivory in colour, with green or brown lines running through it.

Furthermore, the wood has a straight grain and a consistent texture. It has a medium density, which makes it ideal for painting and glueing. In 2019, the Indian plywood market was valued at US\$ 4.5 billion, and in 2020, the market will be worth INR 222.5 billion. Plywood is made up of thin layers of wood veneers that are glued together with strong adhesives. By 2027, the global plywood industry will be worth \$5 billion, with a CAGR of 7.9% from 2020 to 2027. Hardwood, one of the segments studied, is expected to rise at an annual rate of 8.2 percent, reaching US\$58.8 billion by the end of the study period.

Wood-plastic composites (WPCs) are a product category that has grown in popularity over the last 40 years, with more applications and market share. WPCs are composites that contain a wood component in the form of particles (wood particles/wood flour) and a polymer matrix. From part and product prototyping to outdoor decking, they're used in a range of structural and nonstructural applications. When compared to a solid plastic product, wood is often used in plastics to save money.

Wood used in WPCs is mostly sourced from byproducts of the timber industry, such as sawdust, or recovered wood products, and is much less expensive to manufacture than the plastic it substitutes in many products. This often aids in the reduction of consumer prices. From 2016 to 2021, the wood-plastic composites market is expected to develop at a CAGR of 12.4%, reaching USD 5.84 billion. The wood-plastic composites market has been divided into four categories based on application: building & construction products, automotive parts, industrial & consumer goods, and others.

Market Research Report

#### Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?
- 2. What is the Project Feasibility of the Plant?
- 3. What are the requirements of Working Capital for setting up the plant?
- 4. What is the structure of the industry and who are the key/major players?

- 5. What is the total project cost for setting up the plant?
- 6. What are the operating costs for setting up the plant?
- 7. What are the machinery and equipment requirements for setting up the plant?
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?
- 9. What are the requirements of raw material for setting up the plant?

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?
- 11. What is the Manufacturing Process of the plant?
- 12. What is the total size of land required for setting up the plant?
- 13. What will be the income and expenditures for the plant?
- 14. What are the Projected Balance Sheets of the plant?

- 15. What are the requirement of utilities and overheads for setting up the plant?
- 16. What is the Built up Area Requirement and cost for setting up the plant?
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?
- 18. What are Statistics of Import & Export for the Industry?
- 19. What is the time required to break-even?

- 20. What is the Break-Even Analysis of the plant?
- 21. What are the Project financials of the plant?
- 22. What are the Profitability Ratios of the plant?
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?
- 24. What are the Projected Pay-Back Period and IRR of the plant?
- 25. What is the Process Flow Sheet Diagram of the plant?
- 26. What are the Market Opportunities for setting up the plant?
- 27. What is the Market Study and Assessment for setting up the
- plant?
- 28. What is the Plant Layout for setting up the plant?

#### Reasons for Buying Our Report:

- The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product
- The report provides vital information on the product like it's characteristics and segmentation
- The report helps you market and place the product correctly by identifying the target customer group of the product

- The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
- The report provides a glimpse of government regulations applicable on the industry
- The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions

#### **Our Approach:**

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

#### Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more

#### **Download Complete List of Project Reports:**

Detailed Project Reports

Visit:-https://www.entrepreneurindia.co/complete-project-list

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more

# NIIR PROJECT CONSULTANCY SERVICES

**AN ISO 9001: 2015 CERTIFIED COMPANY** 

#### Who are We?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad

#### What do We Offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Business Plan
- Market Research Reports
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)

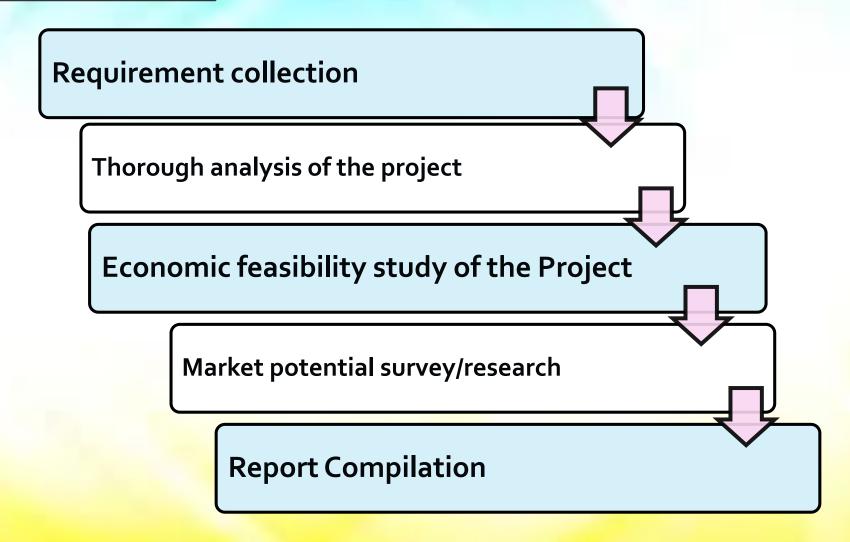

#### How are We Different?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

### Our Approach

#### Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- o Individual Entrepreneurs
- o NRI's
- Foreign Investors
- o Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

www.niir.org

#### **Sectors We Cover**

- o Ayurvedic And Herbal Medicines, Herbal Cosmetics
- o Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues,
   Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- o Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct

www.niir.org www.entrepreneurindia.co

- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing

www.entreprneurindia.co

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitability Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries

www.niir.org www.entrepreneurindia.co

- o Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- o Organic Farming, Neem Products Etc.

www.niir.org www.entrepreneurindia.co

- o Paints, Pigments, Varnish & Lacquer
- o Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- O Plastic Film, Plastic Waste And Plastic Compounds
- o Plastic, PVC, PET, HDPE, LDPE Etc.

- Potato And Potato Based Projects
- Printing And Packaging
- o Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals
