

Start Your Own Business in Top-5

Fastest-Growing Industries.

Hemodialysis Blood Tubing, Ayurvedic Pain Balm, Chocolate and Confectionery, Solar Panel and Dextrose Saline.

INTRODUCTION

Do you want to begin your own new company? You can start it now. Do not be misled about the choice of the enterprise or market field. Company has their advantages and disadvantages, their best business plans to make profits. It's for which company you're passionate and eager to break it down. Your ability to establish your goal still matters a lot. You should be sufficiently optimistic to apply your skills and meet the obstacles ahead. In addition, let's explore a few small and profitable business concepts that will surely bring positive benefits!

Coming up with a brilliant business idea is just the start of your entrepreneurial journey. The best startup business ideas are critical to the success of your business. People nowadays pursue their passions rather than their careers. They are constantly on the lookout for the best startup business ideas to fuel their passion. They don't want to retire when they're 60 years old. Instead of earning a high salary and living in big cities, they seek happiness index.

Millions of people today aspire to start their own company instead of working a conventional 9-to-5 job. During their working lives, the majority of people would chase two or three carriers. Working for yourself is one of the most satisfying things in the world. While running your own company can be challenging, it is rewarding because the effort you put in benefits you individually rather than anyone else.

The background of the slide is a microscopic image showing various cells, likely blood cells, with blue and red staining. The text is overlaid on this image.

Hemodialysis Blood Tubing

Blood Tubing Sets for Hemodialysis designed specifically to connect patient with an external system that extracts blood of the patient to the dialyzer and reverts patient's blood from the dialyzer. Consists of 2 Parts: Arterial and Venous line which are used during dialysis with attached fistula and dialyzer. Unique chambers are there which reduce foaming, increase air removal and do not trap EPO (Erythropoietin). This helps in ensuring secure machine fit and less incidence of wet out.

A single hemodialysis session in India with a new dialyzer can cost between 1800 and 3400 (versus 500 dollars in the USA), while a reuse session would cost between 1600 to 2700. The cost of single-use hemodiafiltration would range between 3200 and 4500. If there are no-cost constraints, HDF is a preferred option to conventional HD and most big dialysis units in India are progressively increasing the numbers of HDF machines (Nipro/Fresenius).

Ayurvedic Pain Balm

A balm is a concentrated, waterless moisturizer that delivers the oil directly to the skin. And because there is no water, there is no need for emulsifiers. Oils blend and beeswax thickens it up. The absence of water also means that balms do not require much preservative, because bacteria cannot grow without water. They are preserved with either essential oils and/or vitamin E.

Balm is touted as a multipurpose product that may be used for a wide range of issues, especially pain. Here are some potential uses:

- **Toenail fungus:** The active ingredient camphor may treat this type of fungal infection. However, this study was done using Vicks VapoRub, not Balm.
- **Back pain:** The active ingredients camphor and menthol may help soothe this type of pain.
- **Common colds:** Menthol may alleviate cold symptoms etc.

Ayurveda is an alternative medicine system with historical roots in India. The Indian wellness and ayurveda industries go hand in hand. Ayurveda is globally acclaimed for its preventive healthcare properties and treatment of many chronic lifestyle disorders. The government set up the Ministry of AYUSH (Ayurveda, Yoga, Unani, Siddha and Homoeopathy) in November 2014 to promote the country's indigenous alternative medicines including education and research.

Chocolate & Confectionery Plant

(Milk Chocolate, Dark Chocolate, White Chocolate, Orange & Tangy Flavour Toffee, Citric Flavoured Candies & Chocolate Wafers)

Chocolate is a product that requires complex procedures to produce. The process involves harvesting coca, refining coca to cocoa beans, and shipping the cocoa beans to the manufacturing factory for cleaning, coaching and grinding. These cocoa beans will then be imported or exported to other countries and be transformed into different type of chocolate products. The chocolate and confectionery products industry has traditionally been subject to significant fluctuations in demand. Chocolate products tend to be seasonal in nature, with demand increasing sharply during the holidays.

Confectionary products include a wide variety of food items, like – milk chocolate, white chocolate, citric flavor candies, orange flavor candies, tangy flavor candies, hard sweets, fudge, toffee, milk tablet, liquorices, jelly candies, marshmallow peeps, marzipan sweets, divinity, chewing gum, etc. Cocoa, specifically, the market size (volume) of cocoa was 3,455,622 metric tonnes in 2013 and is estimated to grow at a compounded annual growth rate (CAGR) of 3.1 % from 2014 to 2019. As for the chocolate market, it is projected to grow at a CAGR of 2.3% from 2014 to 2019.

Solar Panel

Solar panel refers either to a photovoltaic module, a solar thermal energy panel, or to a set of solar photovoltaic (PV) modules electrically connected and mounted on a supporting structure. A PV module is a packaged, connected assembly of solar cells. Solar panels can be used as a component of a larger photovoltaic system to generate and supply electricity in commercial and residential applications. Each module is rated by its DC output power under standard test conditions (STC), and typically ranges from 100 to 320 watts.

The efficiency of a module determines the area of a module given the same rated output - an 8% efficient 230 watt module will have twice the area of a 16% efficient 230 watt module. Solar panels can be used to generate a portion of home's power in order to reduce dependency on traditional power sources. For instance, install panels to provide electricity just for appliances or lighting, to reduce dependency on the utility company, as well as lower bill. Solar modules use light energy (photons) from the sun to generate electricity through the photovoltaic effect.

The majority of modules use wafer-based crystalline silicon cells or thin-film cells based on cadmium telluride or silicon. The structural (load carrying) member of a module can either be the top layer or the back layer. Cells must also be protected from mechanical damage and moisture. The global solar panel market volume reached 155.5 GW in 2019. A solar panel, also known as a PV panel, is a collection of solar (or photovoltaic) cells that employ natural sunlight to generate electricity.

It is made of several solar cells, manufactured using silicon, boron, and phosphorus, which are arranged in a grid-like pattern on the surface. The utilization of solar panels has increased across the globe as they do not lead to any form of pollution and their installation helps in combating the harmful emissions of greenhouse gases. Also, innovations in quantum physics and nanotechnology are projected to increase their effectiveness potentially.

Dextrose saline

Normal saline (NS or N/S) is the commonly used phrase for a solution of 0.90% w/v of NaCl, about 300 mOsm/L or 9.0 g per liter. A less commonly, this solution is referred to as physiological saline or isotonic saline, neither of which is technically accurate. NS is used frequently in intravenous drips (IVs) for patients who cannot take fluids orally and have developed or are in danger of developing dehydration or hypovolemia. For medical purposes, saline is often used to flush wounds and skin abrasions.

Dextrose solution is used during post-operative period when sodium extraction is reduced.

- Dextrose solution with concentration of 10-15% is used as di-urietic for increase in urine flow.**
- Dextrose solution of 5% normal salmicis used for restarting fluid volume in circulation of an emergency as in accidents with raemdrhage.**
- Saline solution is used when large amount of sodium has been lost by vomiting or by gastric or intestinal duodenal aspiration or through analimucation fistuala.**

The increasing prevalence of chronic diseases is expected to drive the growth of the market. It has been forecasted that cancer will rapidly increase by approximately 70% in the next few decades. As per the World Cancer Research Fund International, stomach cancer is one of the top 5 cancers with 952,000 new cases diagnosed in 2012. These patients are 'nil by mouth' and have to rely on total parenteral nutrition (TPN) for survival.

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?

11. What is the Manufacturing Process of the plant?

12. What is the total size of land required for setting up the plant?

13. What will be the income and expenditures for the plant?

14. What are the Projected Balance Sheets of the plant?

15. What are the requirement of utilities and overheads for setting up the plant?

16. What is the Built up Area Requirement and cost for setting up the plant?

17. What are the Personnel (Manpower) Requirements for setting up the plant?

18. What are Statistics of Import & Export for the Industry?

19. What is the time required to break-even?

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

The background of the slide is a blurred photograph of a business meeting. Three people are seated around a dark conference table. A man in a brown suit is on the left, a woman in a blue top is in the center, and another man in a blue shirt is on the right. They appear to be in a modern office setting with large windows and a whiteboard in the background.

Our Approach

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

AN ISO 9001: 2015 CERTIFIED COMPANY

Who are We?

- **One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services**
- **We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad**

What do We Offer?

- **Project Identification**
- **Detailed Project Reports/Pre-feasibility Reports**
- **Business Plan**
- **Market Research Reports**
- **Technology Books and Directory**
- **Industry Trend**
- **Databases on CD-ROM**
- **Laboratory Testing Services**
- **Turnkey Project Consultancy/Solutions**
- **Entrepreneur India (An Industrial Monthly Journal)**

How are We Different ?

- **We have two decades long experience in project consultancy and market research field**
- **We empower our customers with the prerequisite know-how to take sound business decisions**
- **We help catalyze business growth by providing distinctive and profound market analysis**
- **We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors**
- **We use authentic & reliable sources to ensure business precision**

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling

Sectors We Cover *Cont...*

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct

Sectors We Cover *Cont...*

- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing

Sectors We Cover *Cont...*

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries

Sectors We Cover *Cont...*

- Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.

Sectors We Cover *Cont...*

- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.

Sectors We Cover *Cont...*

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals

Sectors We Cover *Cont...*

- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

Market Research Report

Objective

- To get a detailed scenario of the industry along with its structure and classification
- To provide a comprehensive analysis of the industry by covering aspects like:
 - ⌘ Growth drivers of the industry
 - ⌘ Latest market trends
 - ⌘ Insights on regulatory framework
 - ⌘ SWOT Analysis
 - ⌘ Demand-Supply Situation
 - ⌘ Foreign Trade
 - ⌘ Porters 5 Forces Analysis

Objective

- ∞ To provide forecasts of key parameters which helps to anticipate the industry performance
- ∞ To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- ∞ To help an entrepreneur/manager in keeping abreast with the changes in the industry
- ∞ To evaluate the competitive landscape of the industry by detailing:
 - ∞ Key players with their market shares
 - ∞ Financial comparison of present players

Clientele

- ⌘Venturist/Capitalists
- ⌘Entrepreneur/Companies
- ⌘Industry Researchers
- ⌘Investment Funds
- ⌘Foreign Investors, NRI's
- ⌘Project Consultants/Chartered Accountants
- ⌘Banks
- ⌘Corporates

[Click here for list](#)

Data Sources

Scope & Coverage

Our Team

∞ Our research team comprises of experts from various financial fields:

∞ MBA's

∞ Industry Researchers

∞ Financial Planners

∞ Research veterans with decades of experience

Structure of the Report

1. Overview
2. Market Analysis
 - 2.1 Growth Drivers
 - 2.2 Emerging Trends in the Industry
 - 2.3 Regulatory Framework
 - 2.4 SWOT Analysis
 - 2.5 Herfindahl–Hirschman Index (HHI)
3. Market Forecasts
4. Key Players

Structure of the Report

- 5. Key Financials and Analysis
 - 5.1 Contact Information
 - 5.2 Key Financials
 - 5.3 Financial comparison
- 6. Industry Size & Outlook
