Today, millions of people desire to start their own business, leaving the traditional 9 to 5 job. There are various manufacturing business ideas across the world where one can start. In this section, we would provide some top and best manufacturing business ideas which can be started with low and medium investment and that can yield high profits.

Here are Few Ways to Identify More Business Opportunities:

In general sense, the term opportunity implies a good chance or a favorable situation to do something offered by circumstances. In the same vein, business opportunity means a good or favorable change available to run a specific business in a given environment at a given point of time.

Come Up With an Idea

Pick an idea that fits your passions, goals, strengths, resources, and tolerance for risk.

Identify New Business Opportunities

Spotting market opportunities is essential for business growth and survival. One of the best ways of identifying new business opportunities is to complete a SWOT (strengths, weaknesses, opportunities and threats) analysis.

Pick a Growing Sector/Industry

When considering a new business, it is important to look at whether or not your idea is in a growing sector or industry. For example, a lot of start-ups in the IT sector in India did very well because there was huge demand in that industry and the growth was outpacing other industries. Investing in a stagnant sector/industry may not best serve your interests, unless you identify a market inefficiency that you can exploit.

[What is the Future of Manufacturing Business?](#)

The manufacturing business has entered into a dynamic phase. It has a high potential for growth, but one should forget the innovation factor in it. The conventional methods of manufacturing as well as marketing will not work now. Only the manufacturing units that have adapted according to the changing environment have been able to survive. Also, the degree of competition is much higher in every field now, which may pull down the profit margin.

Importance of MSMEs for Indian Economy

Employment: It is the second largest employment generating sector after agriculture. It provides employment to around 120 million persons in India.

Contribution to GDP: With around 36.1 million units throughout the geographical expanse of the country, [MSMEs](#) contribute around 6.11% of the manufacturing GDP and 24.63% of the GDP from service activities.

[MSME](#) ministry has set a target to up its contribution to GDP to 50% by 2025 as India becomes a \$5 trillion economy.

Exports: It contributes around 45% of the overall exports from India.

Inclusive growth: [MSMEs](#) promote inclusive growth by providing employment opportunities in rural areas especially to people belonging to weaker sections of the society.

For example: Khadi and Village industries require low per capita investment and employs a large number of women in rural areas.

Financial inclusion: Small industries and retail businesses in tier-II and tier-III cities create opportunities for people to use banking services and products.

Promote innovation: It provides opportunity for budding entrepreneurs to build creative products boosting business competition and fuels growth.
