

Top Most Business for Setup an New Profitable Industry

English Willow Cricket Bat, Maize Processing Unit
(Starch, Glucose, Germs, Fibres, Gluten & Steep
Water), Packaged Drinking Water with PET Bottles,
Adhesive (Fevicol Type), Bitumen (Polymer Modified
Bitumen, Bitumen Emulsion, Cutback Bitumen)

Introduction

Coming up with a brilliant business idea is just the start of your entrepreneurial journey. The best startup business ideas are critical to the success of your business. People nowadays pursue their passions rather than their careers. They are constantly on the lookout for the best startup business ideas to fuel their passion. They don't want to retire when they're 60 years old. Instead of earning a high salary and living in big cities, they seek happiness index.

Millions of people today aspire to start their own company instead of working a conventional 9-to-5 job. During their working lives, the majority of people would chase two or three carriers. Working for yourself is one of the most satisfying things in the world. While running your own company can be challenging, it is rewarding because the effort you put in benefits you individually rather than anyone else.

Three cricket bats are arranged vertically in the background. They are made of light-colored wood with red handles. The middle bat has the word 'TON' printed on its face. The bats are slightly out of focus, serving as a background for the text.

English Willow Cricket Bat

A cricket bat is a modified piece of equipment that batsmen use to strike the ball in the sport of cricket. It usually consists of a cane handle connected to a flat-fronted willow-wood blade. A batter who is making their ground will do it to prevent being run out if they keep the bat and hit the ground with it. The bat must be no longer than 38 inches (965 mm) in length and no wider than 4.25 inches in width (108 mm). The first time it was seen was in 1624. Since 1979, a law has required bats to be made entirely of wood.

The British, who controlled India at the time, brought in the willow used to make bats in Kashmir during the 1820s. Traditional tools are combined with new technologies in this industry. Anantnag, Baramula, and Pahalgam are some of the Kashmiri districts where these bats are produced. With global demand for cricket bats expected to reach 4 million per year by 2020, the industry's future looks bright. Kashmir willow accounts for roughly 60% of all bats produced in India. Furthermore, with an annual compound growth rate of about 8.4%, the potential turnover from the export of this product is expected to reach \$100 million by 2030.

Maize

Processing Unit

(Starch, Glucose, Germs, Fibres, Gluten & Steep Water)

Since maize has the highest genetic yield potential of all cereals, it is known as the "Queen of Cereals." It is grown on approximately 150 million hectares in about 160 countries, with a wider range of soil, environment, ecology, and management practices, and contributes 36% (782 million tonnes) of global grain production. The United States of America (USA) is the world's largest producer of maize, accounting for nearly a third of global production, and maize is the backbone of the US economy. Maize and maize products are used in a variety of industrial applications, including adhesives, explosives, and soaps, as well as clothing sizing.

Asbestos, ceramics, dyes, plastics, oil cloth, linoleum, paper, and paper boards are all made with maize starch, as are textiles, mining, deep oil exploration, and the cosmetic and pharmaceutical industries. Glucose or corn syrup, corn sugar, dextrin, and industrial alcohol are all maize starch derivatives that are used in various industries. The grain is used in the production of a variety of alcoholic beverages. In 2018, the Indian corn starch market was estimated to be worth \$1.37 billion, and it is expected to expand at a CAGR of 3.9 percent from 2019 to 2024.

The background of the slide is a photograph of numerous clear plastic PET bottles with blue caps, arranged in rows. The bottles are slightly out of focus, creating a sense of depth. The text is overlaid on this image.

Packaged Drinking Water with PET Bottles

Bottled water is drinking water delivered in plastic or glass bottles (e.g., well water, bottled water, mineral water, or spring water). Carbonated or non-carbonated bottled water is available. Small single-serving bottles to large carboys for water coolers are available. The most diverse sector in the food and beverage industry is bottled water. Before being sold, mineral water is bottled in extremely sanitary conditions and subjected to stringent quality control.

Its primary applications include five-star hotels, hospitals, tourist attractions, functions, and private residences where high-quality, pure water is needed for potable purposes. It's sold in areas and regions where clean drinking water isn't readily accessible. Soon after BISLERI introduced its packaged drinking water in India, the bottled water industry in the country exploded. From its current value of INR 160 billion, the market is projected to hit INR 403.06 billion by the end of 2023, growing at a CAGR of 20.75 percent from 2018. According to volume, the demand is expected to hit 35.53 billion liters by 2023, with a CAGR of 18.25% from 2018 to 2023.

The background of the slide is a close-up photograph of a metal drill bit being used on a piece of light-colored wood. The drill bit is positioned vertically, and a small amount of wood shavings is visible at the point of contact. The text is overlaid on this image.

Adhesive (Fevicol Type)

Latex adhesives are manufactured from polyvinyl acetate, a thermoplastic, odourless, tasteless, non-toxic, virtually transparent and colourless resin. Fevicol type adhesives are synthetic resins. It has a non-crystalline, branched structure rather than a linear one. The molecular weight distribution of most resin grades is fairly broad. They soften over a temperature spectrum rather than melting. These adhesives can be used in high-speed machinery in the paper conversion and packaging industries, and they can also be used as wood adhesives.

Polyvinyl acetate is now used in adhesives for a variety of purposes Including:-

- 1. Book Binding.**
- 2. Paper Bags.**
- 3. Milk Car.**
- 4. Drinking Straws.**
- 5. Envelopes.**
- 6. Gummed Tapes.**
- 7. Folding Boxes.**

- 8. Multi - Wall Shipping Bags.**
- 9. Labels, Film and Paper Boards.**

Global players in the adhesives industry have been expanding their operations in India in recent years. With customs duties approaching ASEAN levels, competition from imports and low-cost local players will become even more fierce. By 2025, India's adhesives market is expected to reach US\$ 1.3 billion.

Bitumen

(Polymer Modified Bitumen, Bitumen Emulsion, Cutback Bitumen)

Bitumen is a popular low-cost thermoplastic that has a wide range of applications in construction and engineering. However, bitumen has poor mechanical properties, being hard and brittle in cold temperatures and soft and fluid in hot temperatures. Blending bitumen with synthetic polymers, either virgin or waste polymer, is one of the many ways to toughen it. The primary goal of bitumen modification for use in structural layers is to improve these layers' resistance to permanent deformation at high road temperatures without losing their properties over the rest of the temperature range.

In terms of volume, Asia Pacific is projected to be the fastest-growing region, with a CAGR of 3.0 percent expected from 2016 to 2024. Over the forecast era, government measures to build roads to access rural areas are expected to drive up demand for bitumen.

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?

11. What is the Manufacturing Process of the plant?

12. What is the total size of land required for setting up the plant?

13. What will be the income and expenditures for the plant?

14. What are the Projected Balance Sheets of the plant?

15. What are the requirement of utilities and overheads for setting up the plant?

16. What is the Built up Area Requirement and cost for setting up the plant?

17. What are the Personnel (Manpower) Requirements for setting up the plant?

18. What are Statistics of Import & Export for the Industry?

19. What is the time required to break-even?

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

NIIR PROJECT CONSULTANCY SERVICES

AN ISO 9001: 2015 CERTIFIED COMPANY

Who are We?

- **One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services**
- **We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad**

What do We Offer?

- **Project Identification**
- **Detailed Project Reports/Pre-feasibility Reports**
- **Business Plan**
- **Market Research Reports**
- **Technology Books and Directory**
- **Industry Trend**
- **Databases on CD-ROM**
- **Laboratory Testing Services**
- **Turnkey Project Consultancy/Solutions**
- **Entrepreneur India (An Industrial Monthly Journal)**

How are We Different ?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling

Sectors We Cover *Cont...*

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct

Sectors We Cover *Cont...*

- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing

Sectors We Cover *Cont...*

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries

Sectors We Cover *Cont...*

- Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.

Sectors We Cover *Cont...*

- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.

Sectors We Cover *Cont...*

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals

Sectors We Cover *Cont...*

- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

Objective

- ⌘ To get a detailed scenario of the industry along with its structure and classification
- ⌘ To provide a comprehensive analysis of the industry by covering aspects like:
 - ⌘ Growth drivers of the industry
 - ⌘ Latest market trends
 - ⌘ Insights on regulatory framework
 - ⌘ SWOT Analysis
 - ⌘ Demand-Supply Situation
 - ⌘ Foreign Trade
 - ⌘ Porters 5 Forces Analysis

Objective

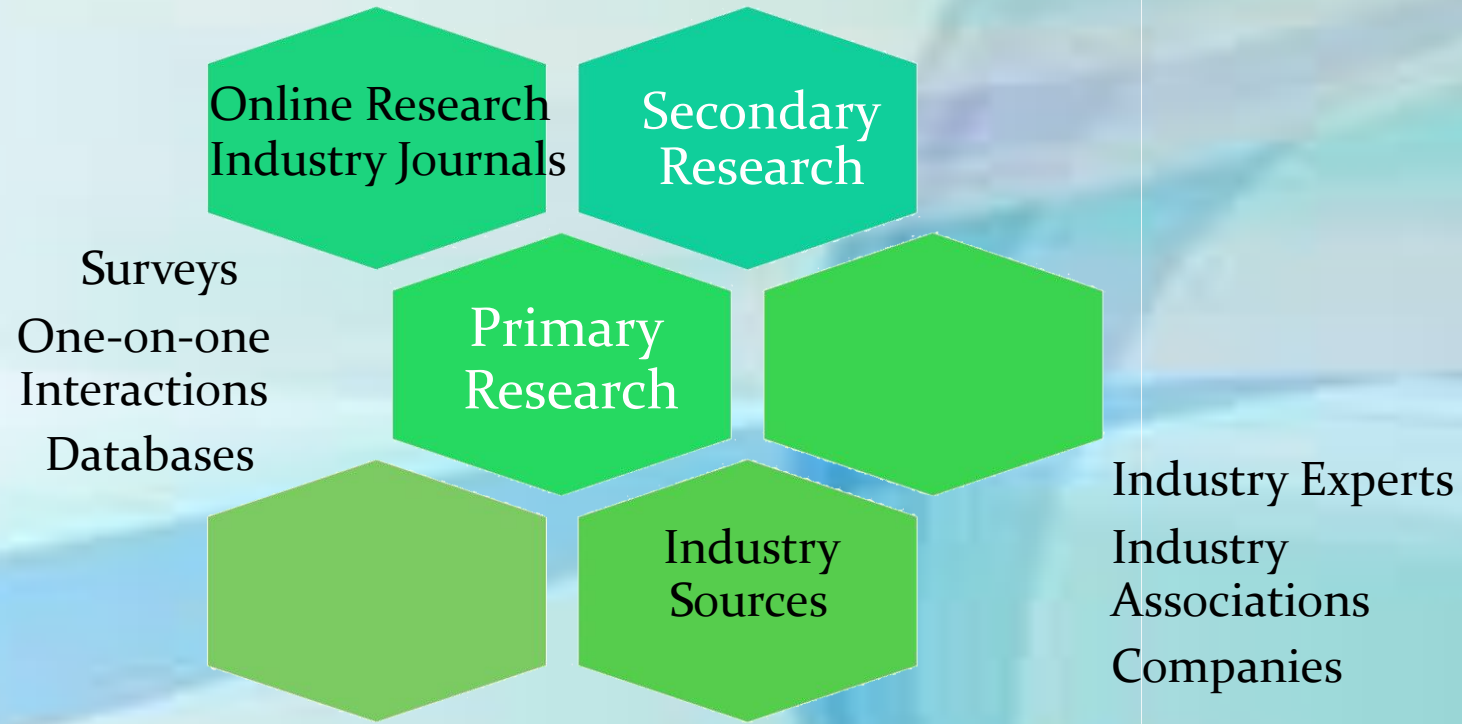

- ⌘ To provide forecasts of key parameters which helps to anticipate the industry performance
- ⌘ To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- ⌘ To help an entrepreneur/manager in keeping abreast with the changes in the industry
- ⌘ To evaluate the competitive landscape of the industry by detailing:
 - ⌘ Key players with their market shares
 - ⌘ Financial comparison of present players

Clientele

- ⌘Venturist/Capitalists
- ⌘Entrepreneur/Companies
- ⌘Industry Researchers
- ⌘Investment Funds
- ⌘Foreign Investors, NRI's
- ⌘Project Consultants/Chartered Accountants
- ⌘Banks
- ⌘Corporates
