

# Want to Start Business in Bangladesh?

Here are few Good  
Profitable Ideas for You.

# Bangladesh

## Introduction

### **Major Cities in Bangladesh:**

- **Dhaka**
- **Chittagong**
- **Khulna**
- **Sylhet**
- **Rajshahi**
- **Comilla**
- **Tongi**

- **Tongi**
- **Bogra**
- **Mymensingh**
- **Barisal**
- **Rangpur**
- **Narayanganj**
- **Siddhirganj**
- **Jessore**
- **Cox's Bazar**

- **Gazipur**
- **Brahmanbaria**
- **Dinajpur**
- **Narsingdi**
- **Nawabganj**

**Bangladesh, a country the size of Iowa, situated in the northeastern corner of the Indian subcontinent and bordered by India and Burma, could be easily overlooked. In reality, Bangladesh is a moderate, secular, and democratic country with a population of 160 million, making it the seventh most populous country in the world (larger than Russia). Bangladesh is a big potential market for U.S. exports, with a growing garment sector providing steady export-led economic growth.**

**The economy of Bangladesh is primarily dependent on agriculture. About 84% of the total population lives in rural areas and are directly or indirectly engaged in a wide range of agricultural activities. Agriculture contributes about 20.29% to the country's GDP- 23%.**

**The abundance of natural resources available in Bangladesh supports a range of highly profitable investment opportunities in agribusiness. Over 90 varieties of vegetable are grown in Bangladesh, yet in this fertile land there is underutilization of the country's agricultural capacity.**

**Bangladesh representing a potential market in itself (and potential access to the much larger South Asian market) Bangladesh also offers considerable potential as a base for labor-intensive manufacturing. Low-cost labour is the factor most often cited by the private as well as the public sector in Bangladesh when asked to name the most attractive features of the country. In addition to its large population and low-cost labour, Bangladesh offers major reserves of natural resources, in particular natural gas.**

**Bangladesh is a moderate, secular and liberal democracy with immense potentials. It has earned global reputation in poverty alleviation, primary school enrollment, women empowerment, family planning, infant, under-five mortality rate and maternal mortality ratio reduction, lowering number of communicable diseases and child immunization.**

**Bangladesh is in the process of a transition from a predominantly agrarian economy to an industrial and service economy. The private sector is playing an increasingly active role in the economic life of the country, while the public sector concentrates more on the physical and social infrastructure. Bangladesh has great ambitions that offer great opportunities in the energy, Agriculture, transportation and environmental sectors for the best domestic as well as international enterprises.**

## **Project Opportunities in Bangladesh:**

### **❖ Agriculture Sector**

**Bangladesh is well known for its progress in human development. The economy of Bangladesh is primarily dependent on agriculture. About 84% of the total population lives in rural areas and are directly or indirectly engaged in a wide range of agricultural activities. Bangladesh has the essential attributes for successful agri-based industries namely rich alluvial soil, a year-round frost-free environment, available water and an abundance of cheap labor. Increased cultivation of vegetables, spices and tropical fruits now grown in Bangladesh could supply raw materials to local agribusiness industries for both domestic and export markets. Agriculture plays a key role in Bangladesh's economic growth. Bangladesh's rural economy, and specifically agriculture, have been powerful drivers of poverty reduction in Bangladesh.**

## ❖ **Transportation Sector**

**Bangladesh's transport and logistics sectors offer immense opportunities for investors, as the country is found most wanting in the area. Improvements in ports, road, rail, and air services are all essential for a country that is in the midst of historic growth.**

**As of we are a developing country the main development issue is on building the infrastructure to enhance the economic growth as well as achieve the economic freedom. Bangladesh ever since the independence has focused on constructing roads & highways. In last three decades transportation sector & construction of roads has been the top priority of government. Private sector, are ready to invest, in Bangladesh's transport infrastructure and trade logistics, towards Bangladesh's growth. Invest in the country. The government will provide the policy support and security.**

## ❖ **Power and Energy Sector**

**Bangladesh has experienced rapidly rising energy consumption over the past two decades. This trend will intensify further in the coming years as economic growth and development efforts accelerate—Bangladesh strives to become a middle-income country by 2021.**

**Electricity is the major source of power for most of the country's economic activities. Noncommercial energy sources, such as wood fuel, animal waste, and crop residues, are estimated to account for over half of the country's energy consumption. Bangladesh has small reserves of oil and coal, but very large natural gas resources. Commercial energy consumption is mostly natural gas (around 66%), followed by oil, hydropower and coal.**

## ❖ **Textile Industry**

**From spinning to weaving, from knitwear to leisurewear and high street fashions, the textiles and clothing industry is Bangladesh's biggest export earner. This rapidly growing sector of the Bangladeshi economy offers a unique competitive edge that supports profitable expansion into new strategic markets.**

**As global demand for cheap clothing rises rapidly, Bangladesh's position as the second biggest exporter in the world continues to hold strong, which is mainly due to its large population and low labour costs. Bangladeshi manufacturers will be forced to enhance productivity levels in order to maintain their competitive advantage.**

## ❖ Jute Sector

**Jute is a vital sector from economical, agricultural, industrial, and commercial point of view in Bangladesh. Once upon a time jute was called the ‘Golden Fibre’ of Bangladesh. It is one of the cheapest and the strongest of all natural fibers and considered as fibre of the future. Jute is second only to cotton in world's production of textile fibers. The jute trade is centered mainly on Bangladesh and the Indian State of West Bengal. The major producing country of jute is Bangladesh, due to its natural fertile soil. Being a major player in the long history of jute trade and having finest natural fiber, Bangladesh has always had an advantage in raw jute trading. Bangladesh is still the largest producer and exporter of raw jute in the world. After the emergence of Bangladesh as an independent state the contribution of the industry to the nation's GDP and in the field of employment declined (in absolute and relative terms).**

Niir Project Consultancy Services (NPCS) can provide  
Detailed Project Report on Required Project

Want to Start Business in Bangladesh? Here are  
few Good Profitable Ideas for You.

## Here are Few Projects for Start-up:

### ➤ WHEAT FLOUR MILL

Wheat is a grass, originally from the Fertile Crescent regions, but now cultivated worldwide. In 2007 world production of wheat was 607 million tons working it the third most produced cereal after maize (784 million tons) and rice (651 million tons).[.....Read more](#)

## ➤ MANGO FRUIT BAR

**Mango is one of the best fruits in India. Mango bar can be prepared from green mango, ripe mango and mango juice. Mango currently accounted 39% of the total fruit export from the India.....[Read more](#)**

## ➤ **PRECIPITATED SILICA FROM RICE HUSK ASH**

**Precipitated silica (also called particulate silica) is compound of aggregates of ultimate particles of colloidal size that have not become linked in massive gel network during the preparation process.....[Read more](#)**

## ➤ CEMENT FROM RICE HUSK

**Rice husk gives a good quality of pozzolanic ash containing silica, which is considered a good substitute for cement. It is prepared by first burning husk to form ash and then mixing it with lime and grinding it to a very fine powder.....[Read more](#)**

## ➤ DISPOSABLE PLASTIC CUPS, PLATES & GLASSES

**The plastic industry in India plays a very important and key role in Industrializations. A wide spectrum of plastics and articles manufactured by the industry has touched the life of every Indian in many ways through consumer plastics. The disposable plastic cups are manufactured by thermoforming technique.....[Read more](#)**

## ➤ **JUTE MILL (WITH SPINNING & WEAVING)**

**Jute is the second most important vegetable fibre after cotton. Diversified jute products are becoming more and more valuable to the consumer today. Jute Mats & Rugs are made both through Power loom & Handloom, in large volume from Kerala, India.....[Read more](#)**

## ➤ **TEA PROCESSING AND PACKAGING**

**Tea is one of the most popular beverages and is consumed by nearly half of the world population. Tea growing & processing is one of the major plantation based industries in India & plays a vital role in India's economy.....[Read more](#)**

## ➤ SUGARCANE JUICE PRESERVATION

**Sugarcane juice is a very delicious drink during summer, contains many minerals and has nutritive value. It is a major constituent of glucose and sugar. Glucose being a major stamina-enhancer, sugarcane juice is a pure and natural refreshment and is available in every town and city.....[Read more](#)**

## ➤ TOBACCO CULTIVATION AND PROCESSING (EOU)

**In modern tobacco farming, Nicotiana seeds are scattered onto the surface of the soil, as their germination is activated by light, then covered in cold frames. In the Colony of Virginia, seedbeds were fertil with wood ash or animal manure (frequently powdered horse manure).....[Read more](#)**

## ➤ **DISPOSABLE PAPER PLATE**

**Disposable cutlery and containers are products that are a part of our day to day life. Disposable items like cups, plates, saucers are being increasingly used. Such disposables items are made with easily degradable materials which are manmade products like paper from wood pulp, biomass etc....[Read more](#)**

## ➤ **SURGICAL COTTON & BANDAGES (EOU)**

**Surgical cotton Industry is mainly limited to small and cottage scale units. Bengal chemical & pharmaceutical works Ltd. is the key manufacture of surgical cotton and Bandages.....[Read more](#)**

## ➤ BANANA & ITS BY-PRODUCTS

**The banana plant is the most cultivated plant in the tropical countries. It is used as dessert, as vegetable and the fruit pulp is dried and processed into flour or preserved for subsequent use. It is a source of calcium and iron and many other minerals.....[Read more](#)**

## ➤ SPICES

**Spices industry has been a trump card in the hands of India since centuries. It was spice trading which encouraged East India Company to come to India and it is the spice trade which is now making India's export trade grow every year.....[Read more](#)**

## ➤ **BABY CEREAL FOOD**

**Food is mainly composed of three main groups of constituents i.e. carbohydrates, fat & protein. In addition to this there must be some inorganic minerals & organic substances e.g. vitamins, Iron, Mg etc.....[Read more](#)**

## ➤ RUBBER GASKETS

**There is competitive growth of rubber gaskets in market. Gasket should be smooth, inert -towards water and normal chemicals, physically strong and should not be corrosive. It is mainly used between the pipelines to make leak proof alignment or joint.....[Read more](#)**

## ➤ **DISPOSABLE PLATES FROM BANANA LEAVES**

**Disposable cutlery and containers are products that are a part of our day to day life. Disposable items like cups, plates, saucers are being increasingly used. Such disposable items are made with natural materials like leaf as well as man made products like paper, plastics. Leaf cups, plates have greater hygiene value.....[Read more](#)**

## ➤ PHARMACEUTICAL INDUSTRY

**The progress of the pharmaceutical industry in India has been hampered by price and other controls. India's pharmaceutical industry has made rapid progress in recent years. India is one of the world's largest drug markets.....[Read more](#)**

## ➤ CHILLI OIL

**Spices are used for flavour, colour, aroma and preservation of food or beverages. Spices may be derived from many parts of the plant: bark, buds, flowers, fruits, leaves, rhizomes, roots, seeds, stigmas and styles or the entire plant tops.....[Read more](#)**

## ➤ MUSTARD OIL

**Mustard/Rapeseed oil is the third largest edible oil produced in the world after Soy oil and Palm oil. At a production level of 13-14 million tons, it accounts for about 12% of the total World's edible oil production.....[Read more](#)**

## ➤ **COAL MINING**

**Coal is an extremely heterogeneous, complex material that is difficult to characterize. Coal is a rock formed by geological process and is composed of a number of distinct organic entities (macerals) and lesser amounts of inorganic substances (minerals).**  
[.....Read more](#)

## ➤ PAPER NAPKINS, TOILET ROLL & FACIAL PAPER FROM TISSUE PAPER ROLLS

**Hygiene is an essential component of healthy living, integral to achieving health and preventing disease. Not just selecting the right food choices but also cooking & consuming them in a hygienic way is equally important in preventing the infectious diseases. Adopting hygienic practices and promoting hygiene in the community, schools and workplace prevents innumerable infectious disease.....[Read more](#)**

## ➤ SOLAR PANEL

**A solar panel is a collection of solar cells. Lots of small solar cells spread over a large area can work together to provide enough power to be useful. The more light that hits a cell the more electricity it produces, so spacecraft are usually designed with solar panels that can always be pointed at the Sun even as the rest of the body of the spacecraft moves around, much as a tank turret can be aimed independently of where the tank is going.....[Read more](#)**

## ➤ COAL WASHING UNIT

Coal washing unit is one of the most important unit for upgradation of coal in sense of fed value by reducing of ash contents in the coal. It is basically associated with seive position to get the quality coal.....[Read more](#)

## ➤ **GRANITE MARBLE CUTTING AND POLISHING UNIT**

**The use of granite and other decorative stones has been increasing world over. India is endowed with vast deposits of these natural resources and is therefore, in a position to meet not only the domestic need but also to greatly enhance export.....[Read more](#)**

➤ **PRODUCTION OF DIFFERENT GRADES OF LIME FROM LIMESTONE (TECHNICAL GRADE LIME, REFRACTORY GRADE LIME, AGRICULTURE GRADE LIME, FCC GRADE LIME)**

**Lime is manufactured from lime stone. Lime is mainly used for manufacture of hydrated lime. Hydrated lime is a dry powder obtained by treating quick lime with water. It consists essentially of calcium hydroxide and some magnesium hydroxide.....[Read more](#)**

## ➤ **BATTERY OPERATED RIDE ON CAR FOR KIDS**

**A toy is an item that is used in play, especially one designed for such use. Playing with toys can be an enjoyable means of training young children for life in society. Different materials like wood, clay, paper, and plastic are used to make toys.....[Read more](#)**

## ➤ THERMOCOLE (EPS) CUP, GLASS & PLATES

**Thermocole or expanded polystyrene as the name suggests, is polystyrene expanded to more than two times the volume of polystyrene. Polystyrene foam is an excellent packaging material because of combination of various properties such as lightness, rigidity, shock absorption, thermal insulation, resistance to moisture, snow white colour etc.....[Read more](#)**

## ➤ **E-WASTE RECYCLING PLANT**

**Electronic waste, e-waste, e-scrap, or Waste Electrical and Electronic Equipment (WEEE) is a loose category of surplus, obsolete, broken, or discarded electrical or electronic devices.....[Read more](#)**

## ➤ LED LIGHT ASSEMBLING

**A light emitting diode (LED) is a device which converts electrical energy in to light. LEDs are preferred light sources for short distance (local area) optical fiber network because they are inexpensive, robust and have long life (the long life of an LED is primarily due to its being a cold device, i.e. its operating temperature being much lower than that of, say, an incandescent lamp), can be modulated (i.e. switched on and off) at high speeds...[Read more](#)**

## ➤ **BISCUIT MAKING PLANT**

**Biscuit industry in India in the organized sector produces around 60% of the total production, the balance 40% being contributed by the unorganized bakeries.....[Read more](#)**

## ➤ **BREAD MAKING PLANT**

**In modern days bread is now becoming one of the most essential food item in human diet due to its readymade availability and high nutritive value. It is the most consumable wheat based bakery product.....[Read more](#)**

## ➤ **BAKERY INDUSTRY**

**Bakery is one of the oldest among the food processing activities. An estimated 78,000 bakeries operate in India. The production of bread is estimated at 11.5 lakhs tonnes and biscuits at 7.8 lakhs tonnes....[Read more](#)**

## ➤ **SANITARY NAPKIN & BABY DIAPERS**

**A diaper or nappy is a kind of underwear that allows one to defecate or urinate in a discreet manner. Diapers are primarily worn by children who are not yet potty trained or experience bedwetting.....[Read more](#)**

## ➤ **ELECTRIC MOTORS**

**The extensive utilization of many types of constructional variants of electric motors in industry, commerce and the home would make a comprehensive guide for their selection, application and maintenance runs into many pages.....[Read more](#)**

## ➤ **MOSQUITO REPELLENT LIQUIDATOR**

**There are some essential oils which have property to repellent of mosquito. Mosquitoes cannot bear the flavour of essential oil though they do not die but they run away. Raw material required for manufacturing of essential oils are easily available in the market.....[Read more](#)**

➤ **SOLAR PANEL ASSEMBLING & SOLAR POWER INVERTER ON GRID, OFF GRID WITH SOLAR PUMP CONTROLLER**

**A solar cell, sometimes called a photovoltaic cell, is a device that converts light energy into electrical energy. Solar panels generate free power from the sun by converting sunlight to electricity with no moving parts, zero emissions, and no maintenance.....[Read more](#)**

## ➤ **READYMADE GARMENTS**

**India is the major supplier of high quality fashion garments, with the changes in life style, rising tailoring costs and relatively low prices of standardized products. The Indian consumer is preferring readymade garments.....[Read more](#)**

## ➤ **LADIES UNDER GARMENTS**

**Hosiery industry in India is one of the oldest in the world. Ludhiana in the state of Punjab is one of the largest and oldest center of hosiery industry in India. These garments are very common daily uses readymade undergarments used exclusively by ladies only.....[Read more](#)**

## Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

## Reasons for Buying Our Report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

## **Our Approach:**

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

## **Free Instant Online Project Identification and Selection Service**

**Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)**

## **Download Complete List of Project Reports:**

### **▪ Detailed Project Reports**

**NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.**

**Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.**

**And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:**

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

**The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,**

**Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.**

**We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)**

# ***Niir PROJECT CONSULTANCY SERVICES***

**An ISO 9001:2015 Company**

## Who are We?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

## What do We Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

## How are We Different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

# Our Approach

**Requirement collection**

**Thorough analysis of the project**

**Economic feasibility study of the Project**

**Market potential survey/research**

**Report Compilation**
